

Excel / CSV cleaning demo

Fictional demonstration data - not a client project.

Two source tables become one cleaned table, with a separate issue list and an independent reconciliation.

Input rows	Cleaned rows	Duplicate removed	Rows for review
12	7	1	4

Original source records

Each row represents one complete order. Order ID is the matching field. All unit prices are CNY. Brackets below show leading or trailing spaces in the source.

Table A

Row	Order ID	Product	Qty	Unit price	Date
1	[S-001]	[Mug]	2	CNY 39.90	2026/09/01
2	S-002	Desk lamp	1	CNY 89.00	2026-09-02
3	S-003	Notebook	3	[12.50]	2026/09/03
4	S-004	Pen	10	5.00	2026-09-04
5	S-005	Storage box	1	45.00	(missing)
6	S-006	Cable	02	18	2026-09-05

Table B

Row	Order ID	Product	Qty	Unit price	Date
1	S-001	Mug	2	39.9	2026-09-01
2	S-004	Pen	10	6.00	2026/09/04
3	S-007	Tote bag	1	CNY 59.00	2026-09-06
4	S-008	Glass	two	29.00	2026-09-07
5	s-009	Phone stand	2	25	2026/09/08
6	S-010	[Mouse pad]	1	19.90	2026-09-09

Rules: trim spaces; uppercase Order IDs; parse unambiguous dates and numeric fields. Only matching normalized records are deduplicated. Conflicts and missing facts require confirmation.

Cleaned output and exceptions

Fictional demonstration data - not a client project.

Cleaned records

Order ID	Product	Qty	Unit (CNY)	Date	Amount (CNY)
S-001	Mug	2	39.90	2026-09-01	79.80
S-002	Desk lamp	1	89.00	2026-09-02	89.00
S-003	Notebook	3	12.50	2026-09-03	37.50
S-006	Cable	2	18.00	2026-09-05	36.00
S-007	Tote bag	1	59.00	2026-09-06	59.00
S-009	Phone stand	2	25.00	2026-09-08	50.00
S-010	Mouse pad	1	19.90	2026-09-09	19.90

Cleaned total: CNY 371.20. Review records are excluded from this total.

Duplicate and issue list

Source / row	Order ID	Disposition	Issue and action
Table A / 4	S-004	Review	Unit price is 5.00; Table B row 2 has 6.00. Confirm the correct price.
Table A / 5	S-005	Review	Date is missing. Provide a reliable order date.
Table B / 1	S-001	Duplicate	All normalized fields match Table A row 1. Retain Table A row 1.
Table B / 2	S-004	Review	Unit price is 6.00; Table A row 4 has 5.00. Confirm the correct price.
Table B / 4	S-008	Review	Quantity is written as "two". Confirm the intended numeric value.

Reconciliation

Every source row has one disposition: 12 = 7 cleaned + 1 duplicate + 4 for review. No unclassified rows remain.

An independent calculation from the valid source orders gives CNY 371.20, matching the cleaned result.

Original source tables remain available in the sample workbook.

Deliverables

Cleaned XLSX or CSV, issue list, and a simple row-count or amount summary. This example illustrates the workflow; each client order uses the agreed matching fields and cleaning rules.
